Agent Onboarding

Request URL

Method-POST

http://api.ambikamultiservices.com/API/Outlet/Register

Request Parameter

Parameter	Description
FirstName	Agent FirstName
MiddleName	Agent MiddleName
LastName	Agent LastName
Company	Outlet Name
MobileNo	Agent MobileNo

Parameter	Description
EmailID	Agent EmailID
Pincode	Agent Pincode Number
Address	Agent Address detail
Pan	Pan Crad number of Agent
Aadhar	The Adhaar Number of Agent who is doing the transaction
CityID	CityID of the Agent
StateID	StateID of the Agent
Dob	Agent DOB dd MMM yyyy
ShopType	Types of shop like Kirana Shop,Mobile Shop,Internet cafe etc
Qualification	Qualification of Agent
Poupulation	Poupulation of the Area
LocationType	Rural or Urban
Landmark	Landmark of Location
AlternateMobile	Agent Alternate Mobile Number
Lattitude	Latitude of the place where transaction is happening
Longitude	Longitude of the place where transaction is happening
BankName	Agent bank name for the trasnaction
IFSC	IFSC Code

Parameter	Description
BranchName	Bank branch name
AccountNumber	Bank Account Number
AccountHolder	Name of Account holder
KycDocument	**KycDocument format should be BASE64**
Pan	Pan Card Image of Agent
Aadhar	Aadhar Card Image of Agent
Photo	Image of Agent
GstRegistration	Document proof of GstRegistration
BusinessAddressProof	Business Address Proof document
CancelledCheque	Image of Cancelled Cheque
ServiceAggreement	Document of Service Aggreement
Passbook	Bank Account Passbook Image of Agent
VoterID	VoterId Card Image of Agent
DrivingLicense	DrivingLicense Image of Agent
ShopImage	Image of Agent Shop
UserID	19806
Token	e2ce87a5b01051114f0b98c6a4da508b

Response Parameter

Key	Description

Key	Description
Statuscode	-1 ERROR ,1-SUCCESS
Msg	detailed description about events
ErrorCode	View Error Code
Data	will be object which will return outletID that must be saved in your Database
